

# PROTECT YOUR DATA FROM FALLING INTO THE WRONG HANDS

Tamper detection sensors offer a high security solution in a space efficient form factor for the detection of physical tampering in small, high security enclosures.

CHEMICAL

CRYO

PYRO

LASER

ELECTRICAL

PRYING

CUTTING

MICRO DRILLING

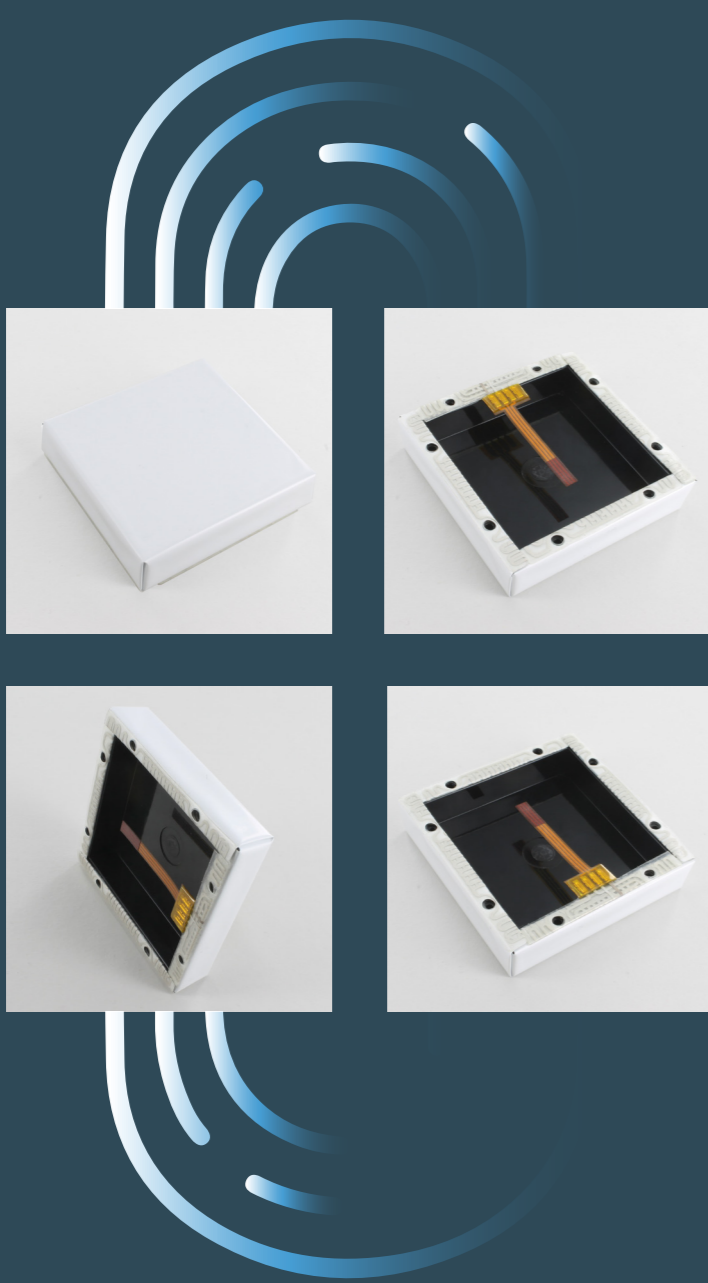

PROJECTILE

## IN THE EVENT OF A TAMPER ATTACK:

SIGNAL/COMMUNICATION ALERT | DATA ERASURE  
SYSTEM INOPERABLE

## TAMPER DETECTION SENSOR

### TESTING STANDARD

**FIPS 140-2 Level 4  
ITAR Compliant**

### FULLY ENGINEERED SOLUTION

Ultra-low power requirements for the circuit, ideal for battery operated applications

### FLEXIBLE DESIGN

Fully customizable for different geometries and different levels of protection

### WHY TE?

We have over **35 years** experience in the tamper detection business.

## SMART INVESTMENT FOR A MORE SECURE TOMORROW

Avoid a security breach and connect with us today.
